sproof

I apply to you!

WANTED: FULL STACK DEV (HUMAN)

https://sproof.io

LETTER OF MOTIVATION

Hi,

My name is James 😊 Im Head of Development at sproof. We deliver digital signature solutions to our customers. Our platform builds on the highest standards for fully-compliant and legally-binding digital signatures according to European and international legislation. We service customers from various domains, including a number of industry leads. We are currently expanding from Austria to the European market. To enlarge the power of our Dev-team we are looking for a new creative mind for our team.

James Scholey
Head of Development

career@sproof.io

ABOUT US

What we offer.

Full time (38,5h/w). Full stack developer (w/m/d). Experience is great. Motivation and attitude is better. We believe in inspiration, motivation and a strong ambition to grow together as company and as team.

Home office | Flexible working hours | Adjustable desks | Modern & bright working place

Stretching area | Barista-coffee (all you can drink) | Spontaneous team events

Team spirit | Fail fast | Culture before strategy | One for all, all of one

Diversity | Tolerance | Feedback culture

Therefore we need you.

From front end to back end. From coding to testing. Solving issues, improving the application performance and implementing features. It’s full stack.

React | Node.js | Redux | Docker | K8S | JavaScript

VITA

Fall 2019

sproof GmbH was founded by Clemens Brunner, Fabian Knirsch and Erich Höpoldseder as FH Salzburg spin off.

Fall 2020

Launch of the product sproof sign.

Spring 2021

sproof sign was distributed on the Austrian and German market for the first time and the initial team has been built.

Fall 2021

The first large investment round helps us to expand the team once more.

#ourplace

Our office is modern and cozy. Puch is small but well situated and surrounded by beautiful nature. This place is a melting pot for creative and motivated people inspiring each other.
